

SUSTAINABLE ENERGY TRANSITION - GENDER EQUALITY AND WOMEN'S EMPOWERMENT

8 September 2021, 14:00–15:30 CEST

Co-hosted by the government of Iceland (tbc) and Kenya, co-organized by ENERGIA, GWNET, and UNIDO and their partners ACCESS, CCA, IIASA, IRENA, Practical Action East Africa, Power for ALL, REN21, Shine, SEWA, UN Women, UN ESCWA this Deep-Dive Workshop will explore the need and opportunities for catalysing action by all stakeholders towards mainstreaming a gender transformative approach in energy transition strategies, initiatives and energy compacts. This interactive workshop will also provide an overview of the energy compact process and background, present the idea and explore the process of creating and registering an Energy Compact to catalyze action to enhance gender equality and empower women for SDG7 that is measurable and actionable; and ask for comments and engagement from participants.
